June 18, 2021

Mayor & Council:

Ridiculous how much City Taxes have gone up in past 2 years!!

"Brain Fog" with all of you!?

Then watching you swarm around on T.V. - deciding taxes will rise another 6% in 2022 & again in 2023!?

Do any of you realize Pension, Inflation, Etc have & are going up less than 1% yearly?

Brain fog would be your only excuse?

And - our "Annual" so-called Water-Bill Poops increasing 19.9% yearly - can't afford to have a vegetable garden in back yard - how do you water it. Cheaper to buy vegetables. You take us for fools.

Then the billion of Dandelions in Kusch Park - borders onto our back-yard fence. No use trying to maintain a nice lawn - Dandelion seeds blow into our yard, garden, lawn, trees, flowers etc etc.

Saskatoon City is NOT a good neighbor. We do not enjoy living here any more - managed by brain-fogged Council not happy.

(PTO)

We need large Garbage Tubs in April - Weekly - because we Power-Rake lawn, trim our trees, shrubs, etc - and need alot of storage for the dry, fluffy grass from last year, leaves, tree branches etc.

May, June, July, Aug & Sept - we do not need our large Garbage Tubs because we put all lawn clippings, veggie & fruit peels, coffee grounds, etc into our own Compost Bin - then spade it into our garden in October.

Then - in October - we need one weekly large garbage bin to dispose of tomato vines, corn stalks etc - which are not good for composting!

We also cut our lawn short in October & have many bags of grass-clippings which do not compost - won't rot.

So - we only need weekly pick-up in April & October - but get weekly when we don't need it.

Brain-fog?

Roy & Hilda Johnson
