May 18/20

Dear Council Members of City of Saskatoon.

As a resident of Spadina Cr E for the past 20 years, I am becoming increasingly concerned about the traffic on Spadina Cr E.

The traffic flow has increased (except during pandemic) over the years but also the speed of the traffic. The noise from motorcycles has become an increasing problem. It is time for the city to address this problem either stopping traffic on Spadina or better enforcement of the speed limit. I am increasingly concerned that a child or pedestrian is going to be

injured because of the increase volume
and the speed of the traffic.

It is too bad during the
pandemic that the city did not
~~stop~~ make Spadina Cr a pedestrian
only to see what effect it would
have had on traffic flow.

Hopefully council will act on
this issue soon.

Yours sincerely
Stephen Allen
