Hi Shellie,

Can you update my submission for the meeting tomorrow.

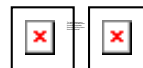

Thanks!

Raj

Health and Safety on Spadina

May 24th, 2020

Spadina Traffic Report Card

How would you feel if were not able to sit on your deck and have a family BBQ in the summer?

How would you feel if you couldn't open your windows to enjoy the fresh air?

How would you feel if after 4 years to see a report with recommendations that you already put forth to the city traffic and a delay til 2022?

I would request that you take Dr. Kapaj recommendations for Spadina and reduce the speed limit as a pilot project to create a 30 kph playground zone for children from Playland to the Wier temporarily until you develop a solution for Spadina. I would also ask that the city study the effects of the reduction in speed on noise levels.
