Comments

If city council cares anything about the residents of Saskatoon they WILL NOT make masks mandatory and leave it as a choice. Mask mandates have been proven to turn residents, family, friends, and co-workers against each other. They have also shown that once a mandate like that happens police have become extremely violent against those who have medical conditions that make them exempt from wearing a mask. They have proven that thinly thing a mask does is cause division and violence. There is significant evidence to proven that no matter what we do or don't do the virus still spreads even with mandatory masking.

So if you guys care anything at all about us residents then you will leave it a choice amongst ourselves. If You, Charlie Clark, care you will stick towhead You said before and NOT make this a political issue and leave masking a personal choice. Stop following everyone else because its "trendy" or because "they're doing it". Man up and not be a hypocrite. Be the man
