Re: Saskatoon City Council Meeting August 30, 2020: Agenda Item 8.3.1

The Saskatoon Nature Society believes that Saskatoon's urban forest is a vital public community asset. The trees provide habitat for native birds, mammals, and other life forms. The trees (and established canopy) also provide shade, improve air quality for everyone, and reduce noise pollution. We believe that the existing tree policy already covers the removal of any safety hazard trees and does not need to include perceived "nuisance" trees. We oppose the proposed amendment coming to City Council on August 31 that would weaken the protection of healthy city owned trees on public property.

Yours truly,

Sara Bryson
President, Saskatoon Nature Society
