Subject NO Mask Mandates,

Meeting (if known)

Comments

I must plead with you to not enforce mask mandates for indoor public buildings for the following reasons:

- we have seen an increase in cases in cities that have
- it is not recommended for children under 10 (Toronto Sick Kids recommendation)
- seniors who mouth breath, those with hearing impairments, people with medical conditions (asthma, cold, etc) are not recommended to wear masks,
- those with anxiety, sensory issues, disabilities will be excluded from joining their community
- the city will not be liable for any medical injury resulting from improper mask wearing (which is easy to find in the general public these days), I myself get headaches and dizzy when I wear a tight fighting mask (as recommended)
- our infection and hospital rates do NOT warrant a mask mandate

The goal was to keep our hospital admittance low, and we have! The goal has never been to eliminate it altogether. There is already a divid amongst the public, lots of of shaming and guilt given to those with medical issues who can't wear them.

We are Adults! And we can decide when its appropriate to wear a mask. We have been doing this for 6 months with Great Success, lets keep that going! City Council is Not in a position to make health policies or

recommendations. Leave that up to Dr.Shabob. We trusted him to put us into quarantine, and now we Must trust him to walk us out when its appropriate.

No Mask Mandates.
