RE: Proposed Regulations for Short-Term Accommodations

This letter is in response to the regulations being proposed for short-term accommodations. Our Association is appreciative of the Administration's consultation with our members and are happy to provide additional insight moving forward. We encourage City Council to consider the following:

- Landlords are traditionally not involved in providing short-term accommodations but operate with tenancies on a month-to-month or term basis. This means that the overwhelming majority of our tenancies are 30 days or longer.
- Landlords and tenants are currently regulated under the *Residential Tenancies Act, 2006*.
- Section 5 of the *Residential Tenancies Act, 2006* states several accommodations that the *Act* does not apply to. These include hotels, motels, and tourist homes, however there is no clear interpretation or legal precedent when it comes to accommodation providers like AirBnb.
- There is relatively no competition between rental property owners and those who are providing short-term accommodations because the clientele utilizing short-term accommodations are much more transient and fluid than traditional tenants in month-to-month or term tenancies.
- Zoning regulations and licensing regimes should not prohibit the role of the rental market in Saskatoon but should create an environment that encourages a sustainable and safe rental market for people at all income levels.
- A healthy housing mix consists of an adequate supply of rental homes that meet the needs of Saskatoon citizens.

Our Association would be happy to assist the Administration in the development and implementation of future regulations for short-term accommodations. If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Cameron Choquette".

Cameron Choquette,
Executive Officer
