

To: Mayor Clarke & Council

Date: September 23, 2020

Re: 727 and 803 Hart Road Development
Rezoning.

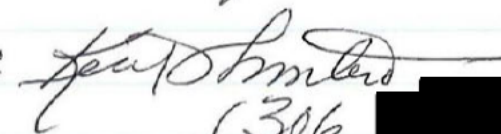

We write to you this evening with our concerns about the above rezoning with the application by Camponi Housing.

When we purchased our lot in June of 2020, the area was to be low and to medium density development — this application indicates a very dense development right next door — false advertising by the city!!! You are placing many seniors as well as young families in harms way by allowing this to go forward! There will be increased vandalism — past history

of random developments are difficult
to ignore!

We personally feel you as current
council should not be deciding the
outcome as many questions from many
concerned citizens were not addressed
at the virtual town meeting held on
September 10, 2020.

Please do the responsible thing
and defer this to new council members
so more dialogue can ensue with
answers to the taxpayers questions
re: this development!

Signed:
