I would like to suggest budget cuts to summer maintenance and beautification, by adding wildflowers in all grassy areas. I've seen this done in other parts and this adds beauty and low to no maintenance to the cities workload, which will then in turn, allow for bigger budget on snow removal in the winter months. I've been living in Saskatoon for almost 3 years now, and have never seen such delayed and or poor maintenance on roads during winter months anywhere in this country. Not only is it a major Hazard for all drivers, but also emergency response time, hence creating even greater risks for the community. Proper distribution of funds would allow for better service and year round employment.

Thank you for your consideration,

Sincerely,

Caroline St -Jean
