Attention Council members: I am concerned about the rising cost of city of Saskatoon services. The service charges on utilities (water, sewer and electricity) are significantly increasing our cost of living. It is my understanding, after speaking with a city of Saskatoon agent, that the service charge rates are set by city council. They are therefore a direct tax and no amount of reduced usage can reduce these charges. The combined service charges exceed the usage costs. These taxes are in addition to our increasing property taxes. Many homeowners are dealing with lost or reduced wages and increasing costs. As a constituent, I ask you to carefully review these charges with a view to lowering them in order to reduce the stress on homeowners.
