Re Proposed Development of Property

308 - 110<sup>th</sup> St. W. Saskatoon

This is Residential as you know and what is being proposed neither suits nor belongs in our area. It is a business far exceeding the parameters of this truly older and characteristic "Residential Area". Myself and others wish to see this not happen at the above address.

We are within one block of a Public School, and many residences are mature and nowhere near the size of this proposed building. There have been far too many older homes, still very livable, no more standing and we've been graced with mature lots totally raped of all greenery and life; the lot then filled with ugly, oversized and in some cases illegal side beside Duplexes.

I have some type of [redacted] on one side of me, <sup>not</sup> knowing or informed who or what it is. We are sure when this happens parties in the area are to be notified. To my other side is a [redacted] in R-2!

Well for me and some who unfortunately don't want to become involved; this proposed development at 308 - 110<sup>th</sup> St. W. is a Definite No.

As a suggestion; why not develop some of the (50) some properties that are boarded up & being torched on the west side. Should help in solving some costly and ongoing problems there.

PLEASE LEAVE US OUT OF THIS! Thank You

J.K. Allan  
[redacted] 111<sup>th</sup> St W
