if you stand at 343 ave r south at look to your left and then look to your right and then directly across the street, what will see? a collection of approximately 10 homes burned up and now boarded up. also a handful homes that are also boarded up for different reasons. now if you watch the appartment building across the street you can see drug deals going down and stolen bikes littered on the balconies. not to mention the mountains of trash dumped in the empty lots and back alleys. so what is So special about this address? and will this boarding house contribute to all the bad things already happening in the area or will it help change the community for the better? I believe this is no place to put a boarding house now because this block needs much needed care and attention and that will not happen by adding a boarding house.
