RE: Innovative Housing Incentives Policy C09-002

On behalf of our over five-hundred members, the Saskatchewan Landlord Association is proud to support the proposed amendments to the innovative housing incentives policy being presented to City Council at their regular business meeting on January 25, 2021.

By combining market, affordable, and special needs housing in single projects, developers can meet the needs of the growing rental market while ensuring the quality and supply of affordable housing is improved as well. Mixed-market developments are key to growing the affordable housing portfolio in Saskatoon in a de-concentrated and sustainable manner.

By amending the innovative housing incentives policy, Council will encourage more developers to undertake affordable housing projects in Saskatoon, which helps achieve the City's strategic goal of sustainable growth and can assist in ensuring that low-income individuals and families are able to find housing that they can afford.

Our members are proud to provide safe, high quality housing, of all types, to the people of Saskatchewan. Through education and expert advice, our members are well served to assist the City in growing sustainably with housing that meets the needs of Saskatoon residents.

Amending this policy comes at a crucial time when affordable housing is needed more than ever to protect the health and safety of individuals and families. We are in full support of the amendments presented and would be pleased to engage with Council and Administration in the promotion of these incentives moving forward.

Sincerely,

Cameron Choquette
Chief Executive Officer
