Dear Sir: Re: Proposed Amendment to Knox United
Church Heritage Designation Law

I am strongly opposed to this proposed Amendment
and it should be denied.

For the same reasons that this project should be
denied, as it will detract from the beauty of
this area. The building would dwarf the two Churches,
detracting from their heritage values as well as the
heritage quality of the Riverfront Condos, the Hallmark,
the Palisades and obstructing the view of the residents.
In addition, this project will greatly devalue
these surrounding properties. This project would
create a host of problems i.e., much over-crowding
in this area, noise pollution which is already a
concern and traffic congestion and parking issues.
Because of the above, I am hopeful this Amendment
and project will be denied.

Yours truly
Vicki Stephanson
