Subject: Email - Communication - Flora Nelson - Proposed Rezoning of 512 to 520 Main Street - CK 4351-021-003

I am concerned that the construction of another multiple housing building on this property will add even more congestion with traffic and pedestrians to the already busy blocks on Main Street between Broadway Avenue and Victoria Avenue.

There will be 8 multiple housing units on the south side of Main Street and 4 on the north side. This already creates enough congestion without another building crowded in these 2 blocks.

I would ask that my - and other residents - concerns be considered.

Respectfully submitted by

Flora Nelson
Main Street
