Re: NSBA Support of Vaccine and Infectious Disease Organization Expansion at the University of Saskatchewan

Dear Mayor Clark;

The NSBA would like to thank yourself, the Governance and Priorities Committee, and the rest of the City Council members who voted unanimously to support the Canadian Centre for Pandemic Research coming to the city of Saskatoon.

Seeing the success of business in Saskatoon is a key pillar in our values at the NSBA. This includes all sectors of business and we see great value in what this project can bring to many different areas of Saskatoon. We appreciate and support the efforts that City Hall is taking to help generate innovative opportunities for our city.

Please reach out to our office at any time that our leadership or membership can be of assistance and support in lobbying with the provincial and federal government, as we are fully aware that the project is contingent on their support as well.

The NSBA fully supports the VIDO expansion at the University of Saskatchewan and applaud your efforts thus far.

Sincerely,

Keith Moen
Executive Director
