Subject: E-Scooters

Message: You need to seriously re- think the idea of e- scooters on Saskatoon sidewalks. As someone who has experienced them in Europe, I can assure you they are an absolute, unmitigated nightmare for pedestrians. You have a motorized vehicle operated at uncontrolled speeds by unskilled and/or inexperienced individuals (who are never wearing helmets) who, to top it all off, come up behind and pass you with no warning. In what other context would this ever be acceptable? Say hello to lawsuits, head injuries, and non-stop complaints. Cars present a danger to e- scooter riders? Well, e- scooter riders present an equal danger to pedestrians (who already have to contend with cyclists on sidewalks. Who is thinking about pedestrians?
