Subject support of Formalized Pedestrian Crossing Near 19th Street

Meeting (if known) SPC transportation Aug. 9, item 9.1

Comments

I support the formalization of a pedestrian crossing at this location. There is already significant pedestrian and bike traffic at this location and so would be strategic to support non-motorized commuting and citizen safety. As is evident by it's current use, it is an apex of the residential area extending from the river and serves to connect to pleasant hill residential areas and services and beyond. This would be an effective project in contributing to the overall development of this area.
