Name of the organization or agency you are representing (if applicable)
Subject Covid vaccine
Meeting (if known) Covid
Comments

I am writing due to a concern I have regarding the possible requirement for a double vaccination to use city facilities. I was an unlucky 1 in 7 (so far) in the world who had a severe reaction to the first dose of vaccine. I am not an anti vaxxer and got my first dose the minute it was available for my age category. I have valid concerns regarding entry into buildings, etc in the city without my second dose. My children have all been double vaxxed and are in sports and activities in the city that I want to be able to watch. It is not for any reason other than medical that I can not receive my second dose. I am not okay with having to get a negative test result every few days so that I can watch my children participate, the time and money involved would be astronomical.

The stress I am under in regards to this is overwhelming. The thought that I won't be able to watch my children in events is very problematic. It would be discriminatory towards me and others in my situation to set this requirement. I do have one vaccination and feel like that should be enough given my situation.
