I have to say I am really disappointed that City Council has to even consider this. It is against privacy to ask for anyone to disclose they have been vaccinated.

You should have trust in your staff to take the upmost precaution on these times. They are fairly smart individuals who also know their rights. Mandatory vaccines is a bullying tactic and will only create more havoc on your staff's mental health. It's not about looking like the better man, it's about the health of your staff. It has been proven that your mental health has a huge effect on your immune system. Why do you think we normally get sick in the winter months when it is a depressing 50 below?

As we have seen the vaccines may be helping some but there are vaccinated who are still able to get COVID. So why push the vaccine, that may not even help against this new variant, when you have already proven to keep your staff safe with the steps you have taken already?

To meet in the middle, I'm sure staff would be ok with frequent testing if they aren't vaccinated.

As an organization you have lost so much knowledge with retirements and also senior leaders leaving. For the sake of

the City, worrying about your staff being vaccinated should be the least of your worries as you continue to lose your talent.
