As a young family, we strongly oppose these constant increase in taxes. We are being nickle and dimed to death. Besides the excessive property tax increases, the amount of taxes we pay on electricity and water far exceeds the use of the utilities. More often than not the taxes are double the cost of the water and electricity used. I am in the Montgomery area where the city is currently redoing the water main/ditch project on Caen. After all the taxes I pay in this area you're still forcing us to pay for the work of the city. It's absurd. Where does all the money go if it's not going to the improvements of the area? It's constantly an increase in taxes because we have an irresponsible city council and mayor. Our taxes are spent on frivolous unnecessary projects that do nothing for the city.
