Subject West Industrial Area -Industrial Residential Interface Study

Meeting (if known) city council meeting September 27th

Comments

The Montgomery Place Community Association supports the report from administration recommending a West Industrial Area -Residential Interface Study which is agenda item 8.3.2

This study is the 1st step in developing performance standards to address nuisances from heavy industrial businesses adjacent to residential neighbourhoods. This includes nuisances such as air, noise, and light pollution as well as substantial heavy industrial traffic. These nuisances don't just impact residents in the west industrial community, they are present in neighbourhoods across the city that have industrial businesses adjacent or in the community.

Montgomery Place is not immune to these problems, as industrial operations surround our community and we are also subject to these industrial nuisances.

We urge city council to make this a priority and support the funding of this study through capital projects.

Respectfully, Barb Biddle President of Montgomery Place Community Association and member of Ward 2 Civics Committee
