Dear Saskatoon City Council Members,

I would like to let you know that imposing more restrictions on Saskatoon Businesses, specifically restaurants, bars and event centers, is not the answer to the healthcare crisis we find ourselves in. The proven scientific answer is vaccinations.

Why would you want to put more hardships on hard working businesses that are following guidelines just to appease the small minority who won't get vaccinated due to their lack in judgement and pure ignorance of facts? Most are simply choosing not to vaccinate simply because they don't want to be told what to do and have no basis of an argument, at least not an intelligent one that I have ever heard with the small exception of medical reasons of persons who are not able to receive the vaccination.

If you add more restrictions to these small businesses you will only accomplish more economic hardships and business closures and still will not have addressed the real issue of how do we truly get out from under this pandemic.

In the fall of 2020, the provincial government closed nightclubs, restricted the hours of liquor sales to 10pm as well as implemented social distancing and capacity limits indoors and our positive Covid numbers still doubled and even tripled after that!

Restrictions only do one thing, kill the economy and certain businesses. Would you be so quick to implement these types of restrictions if your only source of income, your livelihood, depended completely on your business being able to operate as intended? If it was your business and your paycheque being taken away from you, I'll bet you would focus on the real solution to the Covid 19 pandemic....vaccinations and how to education the people that have concerns.

I hope you consider the issues very seriously before deciding on what you would like to do.

Thank you,

Dan Fleming

Saskatoon Small Business Owner
