Your worship,

Well I do not reside in Saskatoon I do work there and help in force the laws to you and council create.

The proposed Covid restrictions on vaccinated and unvaccinated people creates division, hate and creates an increased burden on an already strained police service.

The choice of vaccination should never apply to someone's home. If the vaccination is effective mixing with them vaccinated should not create an issue. The creation of this proposed bylaw would also equate to complete segregation of a population. Well there may be benefits to the distribution of vaccination, The choice to receive medical treatment in this country remains a protected right.

I would request that any further restrictions be dropped, and the status quo remain.
