We have gone from "We are all in this together" to "We are not 'allowed' to be in the same room together". What our City's current mayor and council have proposed with this Gathering Bylaw is, to be blunt, pathetic. Our nation has spent nearly two years denying people proven medical treatments while claiming that the only way out is through a clearly failing inoculation. These covid injections have done nothing but make people in power that much more wealthy while the vast majority of Canadians sit at home watching inflation rates climb, struggle to make ends meet, face losing their careers, and all in the guise of our "safety". As if this weren't enough, our science-denying mayor and council members have taken it upon themselves to further over-reach, to further add stress and pressure to the lives of the very people they were sworn to work for. You refuse to return the calls of your concerned constituents, you refuse to acknowledge the detriment to mental health, caused by these asinine restrictions, and the cherry on top is setting two sets of rules. Make your own choice, no one allowed in your home. Do as we say, ONE FAMILY, allowed in your home. You'd like to spend \$30,000 plus per month on private security (secret police) to enforce these insane rules, fine your fellow citizens hundreds of dollars for having Grandma over for tea, and this Remembrance Day, I pray to God that none of you hypocrites show face at any ceremony or post "Lest We Forget" online, because you've clearly forgotten how this played out last time.
