As a front line health care worker who has been on the front lines since day 1 of this pandemic, I urge you to reconsider this policy regarding gathering sizes, and any other policy you hope to create regarding further Covid restrictions. The insanity has to stop. This pandemic has been carrying on since December of 2019. Almost 2 years into this chaos - the restrictions need to stop. Covid is here to stay. Make the necessary adjustments. The majority of Saskatchewan residents are vaccinated - per the iron fist of the Saskatchewan government leaving most people forced to choose between body autonomy and being able to put food on the table for their families. If the majority have gotten vaccinated - why the increased restrictions?? I have seen so many of my patients have their treatments and diagnoses delayed in the name of Covid. I have patients who have not seen a physician in person in over a year. Unacceptable!! Patients who have overdosed due to the relentless lockdown restrictions and isolation. We need to forge onward and adapt to the pandemic by increasing healthcare services and coming together as a province, not separating and isolating. The isolations have caused more harm than good. We are people who need connection to survive. I beg you to stop adding restrictions and start opening things up to bring the people together. Increase healthcare services and funding if necessary. More restrictions and isolation is NOT the answer.
