I do not believe that separating vaccinated vs. Unvaccinated is necessary. It is going to cause a plummet in mental health for EVERYONE. Diving people based off of medical status is wrong. Whether you are vaccinated or not one can still retrieve Covid and pass it along. Being safe and careful within your household and among friends and family is something we continue to do regardless of anyone's medical status. Medical status should not define whether they can gather or not. I am in strong opposition to this rule. I feel the city's effort to fight Covid 19 should be directed in a more effective fashion for mental health. I do not see how this will help anyone in any way shape or form. Please take this into strong, careful consideration with the people of your city's best interest at heart.
