Subject Gathering Bylaw  
Meeting (if known)  
Comments  
Dear Mayor and City Council,

How dare you think you can decide who I visit, when I visit and how many people I visit! I am double vaccinated and if this so called vaccine is working, why the restrictions? Saskatoon is over 80% vaccinated and you want to pull this card?? The harm you would create is much worse than what is going on now. Do you really think that people are going to listen?

In September, deaths were pretty much 50-50% from non vaccinated to vaccinated. Can you please give me the details on these patients? How old, how many co-morbidities, where are they coming from? It is 100% proven that Vaccinated can get covid, transmit it, be hospitalized, be put in ICU and Die from it. So why the division? How about promoting to get healthy? Eat well, exercise, take vitamins and maintain a good immune system!!

The City is wasting so much money that could be put towards healthcare. How about Merlis Belsher? Millions absolutely wasted... Now you want to pay some firm \$32,000 to ticket people enjoying their lives during this crap show? GOOD LUCK! You want our neighbours to RAT on each other? What exactly are you doing here? I can tell you right now that if my neighbour is enjoying life and if he is okay with me coming over... I will be going over. How about the City Covid

Testing from October to November 15th? Is there a price tag on that? \$200,000-\$300,000...?? Who's idea was this? How about using common sense and send test kits home to ALL City Employees so they can test before heading to work? What does a box of tests cost?

Sask's covid death rate is 1.0% so it must be all about the Health Care System? How many ICU beds have been added since the onset of this Pandemic in Sask? How many staff have been added? If no staff are available to add, how many courses have been offered to teach staff how to manage covid patients? Has there been recruitment offers to get more Staff?

After November 15th, how many Health Care Workers are going to be fired after risking their lives at the start of this pandemic? The buffoonery here is off the charts.

I am glad city council is so called Split on this, but sad that it was even brought up.

Numbers have continued to come down and will do so. Please use your common sense brain and not your political brain on this issue. I will be voting for people who have common sense. You guys must have no idea the Depression this is causing in all ranges of ages, especially youth. Do some research before its too late!

Thanks for your time,

Ash
