Subject Gathering limits bylaw

Meeting (if known)

Comments

I am writing in regards to the gathering limits bylaw that is being presented today. You say that covid cases are coming from within homes and that we are the superspreaders. How about the fact that vaccinated people are also getting covid but if they are a close contact they don't have to isolate but an unvaccinated person does. None of these rules make any sense!!! When I look at our case numbers in Saskatoon, I see them dropping dramatically! A month or so ago we were at close to 1100 cases and today we have 600! I truly feel that all of these rules have nothing to do with health and everything to do with the overreach of the government to try and push the unvaccinated to be vaccinated. Please think about the effects that all of this is having on our children and our families.
