These rules are ridiculous. It has been proven that the vaccinated can still catch and spread covid but they are allowed to do things that those of us who are not willing to disclose private personal health information are not able to.

Why should the police be taken away from solving real crimes and issues to give tickets for this? All this is doing is dividing the city more then it already is. It's bad enough my children can no longer enjoy many services because of this.

Who is going to be blamed for the increase in numbers when you lock those who won't disclose their medical information in their homes? Obviously this vaccine isn't working the way it is designed to. You are encouraging medical rape on those people who cannot afford to not work!
