To all those present, consider this before approving this discriminatory gathering bylaw.

1. COVID will continue to spread regardless of people being unvaccinated.
2. The home is the only place on earth where regular law abiding citizens can hide from the discrimination the current governments are forcing on everyone, not just the unvaccinated. Please consider this sacred place to be none of your concern and remove it completely from the proposed bylaw.
3. The real cause for the spread lies in the fact that you have allowed extremely large gathering of mostly vaccinated people, i.e. concerts. These people spread the virus through close contact then go home to normal life to infect the most weak and vulnerable through a false sense of security that they are immune to spreading the virus if they are vaxxed. This gross conduct is actually endorsed by our current provincial and federal governments.
3. We DO NOT need concerts, restaurants, and other large gatherings at our core. Things we DO need family regardless of status, social interaction with those most important to us, hugs, friendship and love.

I do realize that part of the current regulations are to encourage economic stability, however, even the smallest of business owners in financial hardship will tell you they NEED to see their families this Christmas without discrimination.
