City Saskatoon
Province Saskatchewan
Postal Code [REDACTED]
Name of the organization or agency you are representing (if applicable)
Subject The bylaw today And Saskatoon
Meeting (if known)
Comments

Good morning. I would like to address this bylaw in which is in vote today. I understand mayor Clarke believes this is a good options though here is my concerns as a citizen.

The amount of hate speech, discrimination and segregation between one human race into to vaccine statistics is disgusting. Never have we been this made or angry of a society against our fellow neighbour in my opinion since the color of our skin mattered and people were taught it was just to treat people according.

How you find a can justify a way to separate the need to interact with one another, to go to church a safe place in this crazy upset divided world for some people and not others is sheer discrimination. The places people can go to get help and resources for mental Health is limited and I feel you want to take away more reliable ways unvax people are able to go and get some peace, connection as they are still people, humans and under Trudeau in 2015" a Canadian is a Canadian ". I feel your being prejudice as vaccinated people have the rights and freedoms, they have the death wishes against the unvaccinated over just that not taking a vaccination. They present name calling and degrading in a world where the personal choices ones takes for there health and body should not be a dominant reason to be disliked and bullied, coerced and judged upon.

There are people with real fears about taking it that it's affecting mentally, crippling emotionally, people applying for a bill c-7 because they can't find answers about there fears and concerns post injection. It's not being against a needle it's a genuine concern for there quality of life and condition moving forward.

I feel there is more pressure, distaste towards the unvaccinated people then there is to those who have taken it. There is a general concern about the covid vaccine though the day to day making a living, having a lifestyle, feeding loved ones is becoming a bigger hardship all the time for people. I just simple want to ask you this if you pass this bill and you keep society separate. Suicide rates mental health rates continue , your premiere mister moe said there was more vax then

not, both vax and unvax can carry and pass any virus even influenza.

So how is to be a benefit, lifestyle gain to helping the people of Saskatoon who are unvaccinated by taking away faith services, family and close loves ones, adding more emotional and financial strain for wanting to have a hug during a panic attack and a comforting place to go with a city people are barely surviving in as it is? Are you not looking out for ALL people of Saskatoon. Then stop being bias and treat everyone who bleeds red the same, there all citizens of Canada and we are given the same freedoms under god.
