I am surprised the mayor and councillors would actually agree to hiring security to invade citizens lives in saskatoons homes and actually promote people to snitch on their family or neighbors to coerce the people of this city into getting the experimental drug that actually has according to VAERS caused thousands of deaths and adverse reactions. Also the cdc according to the national post on July 30 2021 in a leaked document that on July 4 an out break in the Provincetown, mass US, stated the vaccinated people spreading the so called delta variant just as quickly has the

unvaccinated, also vaccinated people are spreading the Delta variant according to the yearlong study. Also the PCR test can't detect the virus covid 19 because it has not been isolated.

In your statement when you ran for office you said I quote " you are committed to building the partnership to improve Saskatoon and lives of the people in this city. Instead you are pitting families against each other and neighbors against each other and you are also using our tax money we pay for all your wages, how dare you.

You have also allowed rinks to have tournaments, Sasktel building to be bring in a concert and the rodeo and Halloween parties at prairie land to bring in large crowds and you have put vaccine passports for anyone to attend, so you tell me how the unvaccinated are spreading this so called virus when only all the vaccinated can only attend. How stupid do you think we all are. I hope for every death and adverse reaction that happens to anyone in this city, you all get charged with crimes against humanity.

For your information the world is small. The Nuremberg Code will come to all who have harmed the citizens of all cities and the country. There are 4,600 lawyers, drs, scientist working on this right now. Crimes against humanity.

We are a world of digital soldiers, we know all

Shame on you all, you will not be able to walk the streets.

HOW DARE YOU ALL SIT THERE AND THINK PULLING IN A WAGE FROM ALL OF US TO KEEP YOUR HOMES AND LIFESTYLES

Remember we do zoom calls too, there are some great people in the world that are helping we the people and you all are not them. You will all go down on the wrong side of history.

I am a senior and worked for the healthcare for 25 years and the hospitals were always full and I happened to have looked after patients in the tub room, and hallways in a normal season and having the drs with hold treatment for this flu when ivermectin and HCQ are used world wide for treatment, you are committing crimes against humanity

Maybe check out india and see how they did it.

I would like an answer to this question, how much money are you all getting paid from the WEF, I know mr mayor you know. You are knee deep in this, history is never hidden. Like I said digital soldiers all councillors history will be checked out.

We are smart people, class action suit to all will come in time.

If this was such a dangerous virus why don't you pay workers 23,000 a day to go around cleaning the streets of all the masks that lay around

A law abiding tax payer.
