During consideration of the matter, the Commission was further informed that the level of risk for servicing the Willows Neighbourhood would remain the same following the proposed amendments and additional density. The Administration also noted the proposed density of the Willows Neighbourhood would remain well under the density target as outlined in the Official Community Plan.

Following review of the matter, the Commission is supporting the proposed amendments, although not unanimous. The following recommendation is submitted for City Council's consideration:

*That proposed amendments to the Willows Neighbourhood Concept Plan, Bylaw No. 9700, the Official Community Plan, 2020 and Bylaw No. 8770, Zoning Bylaw, 2009, as outlined in the October 26, 2021 report of the General Manager, Community Services, be approved.*

The Commission respectfully requests that the above report be considered by City Council at the time of the public hearing.

Yours truly,

Penny Walter, Committee Assistant  
Municipal Planning Commission
