> We are senior citizens living in a condo on Cartwright Street. We bought this place because it was a safe, quiet and peaceful place to enjoy our retirement. My 92 year old husband and I have enjoyed going for daily walks in a quiet and beautiful area among nature with limited vehicular traffic. Now however, with Dream's amended plan of a commercial development in the centre of the Willows neighborhood, along with a hotel, spa, etc which will dramatically increase noise, our beautiful quiet community will no longer be as Dream originally promised.

>
> We strongly object to Dream's Amended Neighborhood Concept Plan and urge you to reject any changes to the DCD4 of the Zoning Bylaw and Saskatoon's Official Community Plan.

>
> We, along with 90% of the Willows residents are strongly opposed to Dream's amended plan and we urge City Council to recommend against any changes to the DCD4 or the OCP and to also recommend rejection of the drastic changes to Willows contained in Dream's amended plan.
