Councillor Hill made the following inquiry:

"In respect of the volume of the Wheaton lands, north of Cory Road and west of Highway 12, that are being considered for the proposed interchange of the provincial perimeter highway, I consider the potential financial impact of the final land use, as important and urgent. Would the administration please report on the potential risk of expropriation of a significant volume of the Wheaton lands by the Provincial Government. The report should include reference to the original purchase price and any risk associated with what the assessed market value may be in the future at time of expropriation, with respect to what the City purchased it for."

Councillor Hill made the following inquiry:

"Recognizing that the City of Saskatoon has invested significant resources in acquiring large volumes of land south of Highway 11 and west of Highway 12 for future development and that there will be a requirement to ensure that those lands are properly connected with the appropriate road network, would the administration please report on;

- Who the governing authority is for East Cory Industrial Park,
- If existing road networks currently exist to facilitate a roadwork connection,
- If existing road networks do not exist, if a proposed connection has been identified, and
- If a proposed connection has been identified will land assembly be required, and if so

- Has that land assembly been considered to be accomplished through the purchase of land at a fair market value, a land exchange, or exercising section 184 of the Planning and Development Act."

Whereas, members of City Council reviewed and considered all of these administrative reports and supporting materials on each business line in preparation for, and during budget deliberations;

Whereas, during budget deliberations, members of City Council made decisions based on the detailed material presented with the expectation that the resources and expenses are allocated, throughout the year, as approved;

Therefore be it resolved, that the administration report twice a year, on all occurrences when revenue and/or expenses are adjusted/moved from one business line to another, with an explanation why and noting if the adjustment is temporary or permanent in nature.'
