DATE October 2nd, 2022

To: Committee members of the Standing Policy Committee on Environment, Utilities and Corporate Services.

Re. Implementation of the Urban Forestry Management Plan

SOS Trees Coalition <http://www.sostrees.ca/> works in partnership with the City of Saskatoon, community organizations, private citizens and local media, to enhance and expand the impact of tree education through citizen involvement both at the individual and public policy level.

We know that trees are a major asset of the City and are important to help reduce the impact of our changing climate, reduce the heat dome effect, and enhance the quality of life for all of our citizens.

We urge the Committee to approve the Implementation Plan for the Urban Forestry Management Plan. We believe that the UFMP when implemented will improve the City of Saskatoon by protecting our existing trees and expanding our forest canopy will make the City more sustainable.

As we move forward, SOS Trees Coalition will continue to address issues surrounding our urban forest. We are excited to offer our participation in any way to assist the City in accomplishing the implementation of this Urban Forestry Management Plan.

We appreciate the City's time and effort to move forward with this plan that will ensure a future for our urban forest. We look forward to a greener and more sustainable Saskatoon.

Kind Regards,

Linda Moskalyk,  
President  
SOS Trees Coalition
