Comments

I would like to speak to city council members at the August 8th transportation meeting regarding the Montgomery Place 11th street exit project. This proposal is dangerous for the residents of Montgomery and will cause bottlenecks at that rail line as CN uses that rail line frequently to re-route other trains, making them more frequent and much longer. This will cut off emergency services even more so than we already are!

As someone who actively lives in that area and I have for my entire life, I feel it would be irresponsible to vote on something without members of the Montgomery area's input.
