Comments:

I wish City Council to reconsider not replacing the City Greenhouses that are being condemned. Having our own greenhouses allows us to choose directly what we want to plant in pots around the city. To date the choice of unique and colorful plants has invigorated the landscapes of Saskatoon. In addition the City Greenhouses manage some of the unique plants in the Mendel Conservatory. This is a marvelous place to visit! Finally please consider that people will become unemployed as happens when a business closes.
