Comments:

Saskatoon, like Edmonton is in the highly fragmented Aspen Parkland edoregion. The Swale Protected Area is a priceless remnant.

I am current working on a grand vision for conservation of the Aspen Parkland , a wildlife corridor connecting the Foothills in Alberta to Northern Minnesota. The Swale Protected Area is a mid-point in this vast network.

Canada is commented to the 30 by 30 goals for protecting biodiversity. Supporting the Swale Watchers boundaries is a great way for Saskatoon to demonstrate to the world the bold actions needed to ensure a livable future.
