Comments:

I want to support the adoption of the UH3 development boundaries submitted by the Swalewatchers group as these include connections between the swales and more habitat protection for the animals and plants that depend on it. Alternatively I'd like to suggest - though I expect it's too late - that the City consider developing the agricultural but largely empty land along the east side of Preston Avenue south of Preston Crossing, north of 14th Street. This would be a more amenable place for people to live, use active transportation, have easy access to stores etc. And cheaper for the City to develop infrastructure. Obviously things are probably too far along to change course this radically but in the long term it would be worth it to save the integrity of the swales.

Will you be submitting a video to be vetted prior to council meeting?: No
