Comments:

As a Saskatoon resident I do not support the destruction of the Northeast and Small Swales. We must do all we can to protect and preserve the last endangered grasslands that we have. I support the Swale Watchers

recommendations, and do not support Option 3, as it fails in multiple ways that are listed below.

- Fail to provide optimal protection for the sharp-tailed grouse dancing ground in the Northeast Swale.
- Fail to safeguard the wetlands in the hydrologically sensitive Small Swale, and
- Fail to provide viable habitat linkages between the Small and Northeast Swales and between the Northeast Swale and the river valley. Providing these connections is absolutely crucial to maintaining the health of the Swales and the species who live there.
