Comments:

Please consider swale boundaries and plan as suggested by the swale watcher's organization.

If you find it necessary to chose option 3, please also address what is lacking within it.

- Failure to provide optimal protection for the sharp-tailed grouse dancing ground in the Northeast Swale.

• Failure to safeguard the wetlands in the hydrologically sensitive Small Swale, and

• Failure to provide viable habitat linkages between the Small and Northeast Swales and between the Northeast Swale and the river valley. Providing these connections is absolutely crucial to maintaining the health of the Swales and the species who live there.

We very much want to maintain the swale as it stands today, to protect biodiversity, wildlife and the feel of Aspen Ridge. It is the main reason we bought our home there.
