Comments:

I lived in Saskatoon for 65 years and in that time biking safety was never a priority for City council. It's a shame we need to have another fatality to make it a priority. We need to survey other cities with biking pathways that link up to each other and make the changes here. Many biking paths just end leaving bikers to take their chances on unsafe roads. We need biking path maps located on streetways and parks and also included on your website. We need logical and easily accessible pathways from every neighborhood to our Meewasin trails and we need them now not years from now!! Everyone should have access to safe biking and walking paths throughout the city.

Will you be submitting a video to be vetted prior to council meeting?: No
