Meeting (if known) Budget deliberations on the LEC Plan

Comments

Your honour the mayor and councillors

I am writing to support your very important climate plan . I very much would like to see it approved with an adequate long term funding commitment. With the climate emergency we are facing we must not let short term business interests distract us from pursuing what we know we must do, for our grandchildren, future generations and the the blue planet, our home. Paul Wilkinson

Subject Low Emissions Plan implementation and budget

Meeting (if known) Nov 25/budget deliberations

Comments

Dear Mayor Clark and City Council,

I'm writing to express my extremely strong unwavering support for the Low Emissions Community (LEC) Plan.

I understand that there are some LEC initiatives that were slated for 2020-2021 in the plan that are not on the prioritized list. As a comprehensive strategy, it is not possible to pick and choose which items will be funded and which ones will not be each year. The sooner the LEC plan is implemented, the sooner we will see results including economic returns on investments which can help fund future initiatives as well as climate adaptation work.

I understand that the City has limited resources. That is why, in addition to advocating for all of the 2020-2021 LEC Plan items to be funded this budget cycle, I support the establishment of a long-term funding strategy to support the Plan so that each item doesn't need to be debated at Council each year, and the Plan as a whole can be endorsed and worked on over the long-term. There is no time to spare, effective comprehensive action must happen now if we are to mitigate global heating and its traumatic effects on Saskatoon now and in future.

I want to see the LEC Plan funded adequately this year and long-term. I will continue paying close attention to the budget process because this issue is so important to me and my family.

I thank you very much for all your efforts developing and advancing the PEC Plan, for recognizing global heating as the existential threat that it is for Saskatoon, and for continuing to fight the good fight on behalf of all of us living and growing up in Saskatoon.

Best regards,  
Julia Boughner

I just wanted to drop a quick note to say how important it is to me and my family that our municipal leaders provide leadership on addressing climate change and develop strategies to adapt. We are very supportive of the LEC Plan and want to see it funded adequately this year and in the future. We'll be following along with the budget process.

Thank you, as always, for your very hard work and how much you care about this city. We really appreciate it.

I strongly urge Council to adequately fund the LEC Plan and to continue support for its implementation. As I am sure you are aware, not only is this a needed contribution to dealing with climate disaster and our duty as citizens of the world, it is actually a win-win situation in that the City as a whole will save billions of dollars through the implementation of the plan.
