**Service category:** Bylaws & Policies

**Subject:** Fireworks

**Message:**

With alarming evidence of climate change all around us, I am amazed that City Hall would consider sanctioning an even greater use of fireworks. Growing up, I enjoyed a light show as much as everyone else, - but that enjoyment now is tainted by the environmental and social damage that they cause. Fireworks emit large amounts of CO2 and other gases with even greater global warming potential. They are dangerous and extremely stressful for those in our community suffering from stress disorders due to war or violence (not to mention their furry companions). Please calculate the cost to society and the environment vs the benefit. The time for change is now.
