What do you wish to do ?: Submit Comments

What meeting do you wish to speak/submit comments ? (if known):: Governance & Priorities Committee

What agenda item do you wish to comment on?: Agenda Item 8.3.1

Comments:

The Student Action for a Sustainable Future (SASF) program is transformative and award-winning. The program has served over 3,400 students, 146 teachers, and 72 schools in its 10-year legacy. As a teacher, I have accessed this program several times over the last 10 years.

This unique curriculum connected program provides strong data driven and science-based learning for students on climate change, the design process and engages the students in meaningful action. Through its innovative inquiry-based approach it is the only program of its kind in Saskatoon that supports students to take action to reduce greenhouse gas emissions at school, home, and in their community through projects they design. Students in this program are highly engaged, propose and implement real world solutions, and build tangible skills. Students leave the program to become environmental and civic leaders equipped with the tools to educate and make impactful changes in their communities. Students become active, engaged citizens of Saskatoon.

The SASF program has overwhelming benefits that are well worth the continued support and investment by the City of Saskatoon. I encourage the City to continue the legacy of the SASF program for future students and educators through adequate funding.

Will you be submitting a video to be vetted prior to council meeting?: No
