Hello,

A question for all of you, why when we as a city are in a huge deficit, are we not cutting back on **planned** overtime.

On Labour Day Monday we had full garbage pick up. Surely that doesn't need to happen. Can there not be better planning to ensure that the overtime (time and a half, or double time not sure) isn't being paid.

Please look at this across the city workforce.

Looking forward to your response.

Ari Avivi
