Comments:

To Saskatoon city council,

I believe that both of these measures provide a safer way for bikers to commute throughout the city. I am a cautious and timid biker when it comes to busy streets. I thoroughly enjoy myself when on paths or controlled shared paths. With the inflated cost of living I have had to increase my means of transportation on my bike and would appreciate any way the city could Rachel back and help the biking community.

Increased lighting along shared path between defienbaker and Kensington blvd along 22nd st would be greatly appreciated as it has none and with students walking to high school and bikes sharing riding in the darkness in the morning commute is dangerous for all involved.
