Comments:

As a regular bike rider, I welcome infrastructure like the Connecting Avenue C: Walking and Cycling Improvement Project that both encourages more “AAA” (All Ages and Abilities) users and increases accessibility into neighborhoods where people want to go, regardless of their mode of transportation. This project will provide a significant north south corridor for citizens using Active Transportation and provide simpler access to work opportunities in the North business district for those who cannot afford, or do not I have not forgotten Natasha Fox and Darin Kinniewess, two community members who died this year while riding their bikes. I want to live in a city where elected officials do everything in their power to reduce the likelihood of further tragedy. With as many as 50 SGI reported car/bicycle collisions a year (many others go unreported) the potential for more tragedy is horrifying! wish to use, a personal vehicle.
